Starter sets for fiber optics

The starter sets for fiber optics from METZ CONNECT contain the **most important tools** for preparing optical fibers and fiber optic cables. All tools are compactly stored in a **tool bag**. In addition, you will receive a **mounting pad** and one of the four **connector sets** listed. This means you are well-equipped for splicing work or connector assembly in the field.

Part numbers starter sets:

(Tool bag including pad and connector kit)

P/N 150800200-E3
